

2D Code Readiness Checklist

Use this checklist with your packaging, operations, quality, and IT teams. Focus on one product or packaging line. For each question, select **Confirmed**, **Needs Review**, or **Not Applicable**.

CHECKLIST QUESTION	CONFIRMED	NEEDS REVIEW	N/A
Have we defined what the code should do and who will scan it?	☐	☐	☐
Have we confirmed the intended recipient's code, data, and scanning requirements?	☐	☐	☐
Do we know which information the code needs to contain and where it will come from?	☐	☐	☐
Do we have a process to ensure the correct product, lot, and date information reaches the printer?	☐	☐	☐
Have we identified a suitable code location and evaluated readability on the finished pack?	☐	☐	☐
Have we tested whether our equipment can produce the required code at normal operating speeds?	☐	☐	☐
Have we evaluated the effects of moisture, chilling, handling, and packaging changes?	☐	☐	☐
Have we defined how to check code quality and data accuracy and what happens when a check fails?	☐	☐	☐
Has the intended recipient tested that they can scan the code and use the required information?	☐	☐	☐
Have we selected an application, involved the right people, and agreed on what a successful trial should demonstrate?	☐	☐	☐

Our top three questions or next steps:

1. _____
2. _____
3. _____
