

Mx350i-eP Cabinet

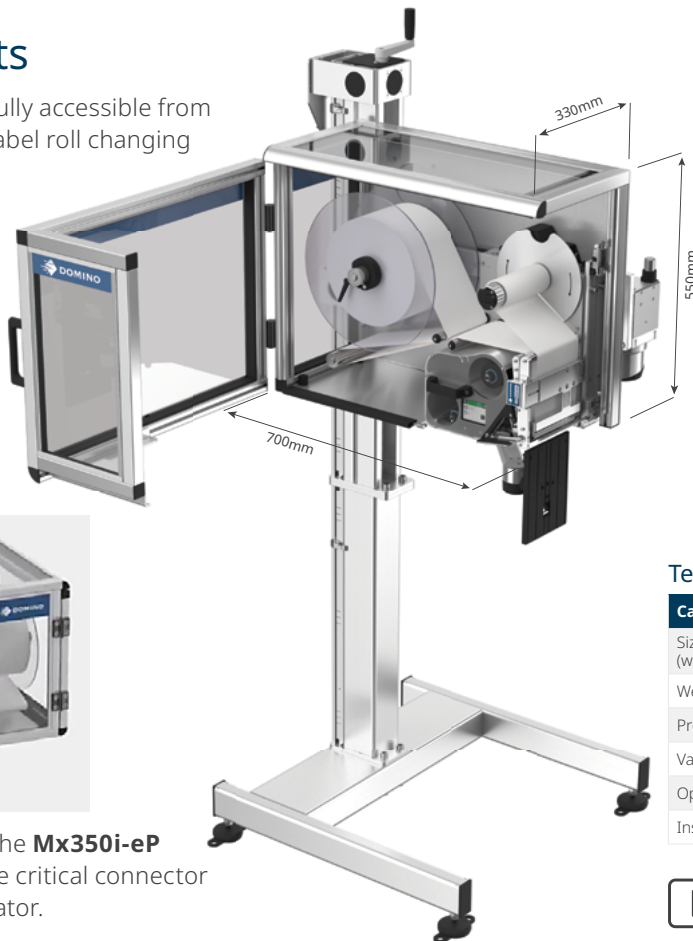

Protection for tough environments

The optional **Mx350i-eP Cabinet** delivers extra protection and peace of mind in challenging production environments. It shields the printer including the label roll from dust and splashes while keeping usability at the forefront. With full side access roll changes, and maintenance are quick and easy.

Key Benefits

The **Mx350i-eP** is fully accessible from two sides for easy label roll changing or maintenance.

The cabinet is designed for easy fitting and retrofitting on the standard floor stand.

Height of the complete unit (printer and cabinet) can be adjusted through the stand.
