

# Eggshell coding with Ax-Series printers

To ensure consumer safety, regulations globally demand every egg to carry a code so it can be accurately tracked and displays relevant food safety information. For precise and accurate eggshell coding our Ax-Series continuous inkjet printers smoothly integrate into grading systems. Domino's eggshell coding inks are manufactured to Direct Food Contact guidelines while providing great print clarity, contrast and adhesion.

## Red, blue and green colours for flexibility

- ◆ Prints have excellent contrast on both brown and white eggs
- ◆ Printed codes withstand refrigeration
- ◆ Codes stay crisp and sharp in contact with eggwhite and water (ink type dependant)

## Compliance for peace of mind

- ◆ Manufactured to Good Manufacturing Practice (GMP) and Direct Food Contact guidelines to support local food legislation requirements
- ◆ Compliant with EU, FDA and Chinese regulations on food additives and Kosher certified

## Flexible printers designed for integration

- ◆ Coding solutions for small egg farms through to full grader integration delivering the capability to grade each egg across multiple egg grading lanes
- ◆ Ax-Series CIJ printers support the Eggnet protocol and integrate seamlessly with high speed egg graders
- ◆ IP55 cabinet with IP66 electronics enclosure and optional 316 stainless steel cabinet provide maximum protection during washdowns

## Your benefits from Domino

Domino's Ax-Series CIJ printers offer improved print performance and low consumable use. Stackable IP55 rated cabinets minimise the installation footprint and withstand daily washdown regimes. The Ax-Series printer typically delivers >99.5% operational availability to ensure you can code your eggs when required.

## Proven performance

Domino's long experience within in the egg coding sector means the Ax-Series printer delivers the print performance, inks and code quality to successfully code eggs and meet market requirements across the world.

## Technical specification

	4RD103 – Red	4BL105 – Blue	4GR105 – Green
Ink	IC-4RD103	IC-4BL105	IC-4GR105
Make-up	MC-4RD103-4	MC-4BL105-4	MC-4GR105-4
Wash	WL-400	WL-490	WL-490
Printer configuration	<b>Ax350i / Ax550i</b> 60 & 75 micron nozzle	<b>Ax350i / Ax550i</b> 60 micron nozzle	<b>Ax350i / Ax550i</b> 60 micron nozzle
Ink Shelf life	12 months	12 months	12 months
Storage and transportation	Temperature 5 - 35°C, humidity: 10 - 90% RH non-condensing		
Printer running environment	5-45°C	5-45°C	5-30°C
Print properties	Excellent drying time	Good drying time	Good drying time
	Excellent water fastness, eggwhite resistance and good boil resistance	Excellent water fastness and eggwhite resistance	Develops water fastness over time, good refrigeration resistance
Approvals & Certifications	FDA, EU and China compliant for use in egg coding applications		
	Do not contain any substances of very high concern (SVHC)		
	Kosher certified	Kosher certified	Kosher certified including Passover
