

Domino Benelux, with offices in The Netherlands and Belgium, is part of Domino Printing Sciences, an independent division of Brother Industries. We deliver solutions for printing variable data including expiry dates, traceability codes and barcodes. These codes can be found on food, beverage and pharmaceutical products. Alongside this, Domino also delivers digital printing label solutions.

Due to the growth of our Digital Printing division, we are currently recruiting a

Service Engineer Benelux - Digital Printing Solutions (Colour and Monochrome)

The mission of our new Field Service Support Engineer is to provide Service Support to N-Series (label press), K-Series and Bitjet products (and other when required) customers in the Benelux. You integrate, commission, repair and service the products and systems sold by the Digital Printing business. You provide DP sales assistance in the delivery of technical solutions and products that conforms to best practice. You will pro-actively spend time with customers to provide training and to aid retention. You continually work to advance efficiency of technical implementation.

This role will be field-based with a requirement for frequent travel within Benelux and sometimes other European countries. Therefore it is a preference if you are residing in Belgium.

Competencies

- Reliability
- Flexibility
- Energy
- Self-Organisation
- Work Standards
- Questioning and Analysis
- (Fine) mechanical skilled
- Electro technical skilled
- Electronically skilled
- Computer/Networking skilled
- Software skilled
- Impact & Acceptability
- Team Working
- Problem Solving
- Listening & Empathy
