Dear Miss.Melanie Buckingham

Re: Sustainability Verification

Congratulations, your Sustainability Questionnaire has now been verified. You will now be visible to clients as Sustainability verified.

As a business we've recently made the move to stop producing the Sustainability/SafePQQ certs you might have received in previous years, but please rest assured that your Sustainability verification will still be visible to on the client portal for any clients that you work with.

If you have any further questions or queries, please contact us on the details below:

Yours Sincerely,

SafeContractor Team
